

GREASY 105

MARINE GREASE

GREASY 105 is a grease especially intended for lubrication of the materials immersed or in contact with sea water.

GREASY 105 answers the technical specification marines 7420B (Symbol Marinates "Lubricates for Immersed Articulations" and with classification OTAN G 460)

GREASY 105 is a grease perfectly adapted for the lubrication of the winches, naked stage, bearings, gears, cables, chains which are subject to strong loads and salted water projections or spray when the temperature of continuous service is between -10°C and $+100^{\circ}\text{C}$.

GREASY 105 has an excellent oxidation resistance.

GREASY 105 has very good qualities anti-wear and extreme pressure. This grease is completely insoluble with the water and especially with sea-water.

GREASY 105 offers a good stability at the work, does not age and resists very well to the UV.

GREASY 105 can be recommended like product of protection during storage going even beyond 18 months.

GREASY 105 is eliminated with using oil solvents.

GREASY 105 does not present any particular under the normal conditions of use.

Ref. 143M - Tube 200ml
Shelf Life : 2 years

H319 Causes serious eye irritation. P280 Wear eye protection/face protection. P102 Keep out of reach of children. P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Always make beforehand, a test with the surface to be treated to determine the compatibility and the time of contact suited.
