

# HYDREX

## HUMIDITY EXTRACTOR FOR ELECTRICAL AND ELECTRONIC EQUIPMENT

**HYDREX** is a waterproof product that protects your electrical or electronic equipment.

**HYDREX** removes any humidity present so the equipment functions at its best.

It leaves a long-lasting, protective film that protects the treated area.

**HYDREX** is ideal for cleaning electrical or electronic items.

**HYDREX** protects all types of connection against the corrosion caused by a salt-laden atmosphere:

- High and low voltage
- VHV ignition, UHF/VHF
- antenna bases, coaxial outlets...

**HYDREX** avoids start-up striking problems, electrical losses and short circuits.

Both prevents and cures.

It returns the devices' dielectric constants and characteristics to their initial values, even when water is present.

**HYDREX** is sprayed directly onto the surface to be treated.

**Ref. 402M**  
**Aerosol 150 ml**  
Shelf Life : 2 years

H222 Extremely flammable aerosol. H229 Pressurized container: may burst if heated. H315 Causes skin irritation. H319 Causes serious eye irritation. P102 Keep out of reach of children. P210 Keep away from heat/sparks/open flames/hot surfaces. — No smoking. P211 Do not spray on an open flame or other ignition source. P251 Pressurized container: Do not pierce or burn, even after use. P302 + P352 IF ON SKIN: Wash with plenty of soap and water. P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P410 + P412 Protect from sunlight. Do not expose to temperatures exceeding 50°C/ 122°F.

This document does not imply our responsibility as to specific applications. This data sheet can already, at this precise moment, be revised for reasons due to the legislation, the availability of components or experiences recently acquired. The last version of this data sheet, which is the only one valid, will be sent to you on simple request.
