

KLINPERL

CONCENTRATED WAX CLEANER FOR GELCOAT AND PAINT

KLINPERL, rich in active matters and washing agents, allows a perfect solubilization of traces of grease, mud, salt...

KLINPERL contains sequestering agents anti-liming, which disaggregate calcareous film deposited on the hull.

KLINPERL does not attack the light alloys, chromium, stainless, polycarbonate and does not opacify glass.

KLINPERL is a product free from silicone and derivatives. There is no need to be concerned in case of painting the hull.

Its formulation leaves an auto-drying protective film on cleaned surface and gives back the brightness to the gelcoat, paint, light alloys, stainless on repeated cleaning.

Technical data :

Physical state : Liquid

Colour : Yellow.

Odour : beeswax.

pH : 8

Flash point : > 60 °C

Ref. 451M - Bottle 1 litre
Ref. 451M.5 - Bottle 5 litres

Shelf Life : 3 years

H318 - Causes serious eye damage. P280 - Wear protective gloves/protective clothing/eye protection/face protection. P305+P351+P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P310 - Immediately call a POISON CENTER/doctor/... P102 - Keep out of reach of children. EUH208 - Contains (118-58-1). May produce an allergic reaction. Always make beforehand, a test with the surface to be treated to determine the compatibility and the time of contact suited. Components contain 5% or more but less than 15% of ionic agents and less than 5% of non-ionic agents.

This document does not imply our responsibility as to specific applications. This data sheet can already, at this precise moment, be revised for reasons due to the legislation, the availability of components or experiences recently acquired. The last version of this data sheet, which is the only one valid, will be sent to you on simple request.
