

TECHNICAL BULLETIN

COLOR RESTORER

Safely removes light oxidation, stains and blemishes on all fiberglass gel coat marine or RV surfaces. Revives faded, oxidized surfaces to their original vibrant color.

Part #: M-4416 – 16 fl oz

Packaging: 16 fl. oz - 6 per case

Features:

- Mild cleaner and gloss enhancer
- Safely removes light oxidation and stains from gel coat and fiberglass surfaces
- Enhances gloss to reveal original vibrant color

pH: 8.9-9.5

Paintable: Yes

Dilution: RTU (Ready to use)

Application Method: Apply by hand or machine, buff/wipe off

Directions:

FOR MACHINE USE: SHAKE WELL. Always apply on a cool surface in the shade. Working one section at a time, dispense product on a clean surface (when working with a new buffing pad, apply a small amount of product, in the shape an X on the pad itself.) Do not apply to vinyl, rubber or cloth surfaces. Using moderate pressure on the buffer, spread the product evenly over the surface with overlapping movements, to ensure uniform coverage. Work product until nearly dry. Immediately wipe dry with a separate clean, 100% cotton, terry cloth towel. (For best results, use a high-speed rotary buffer with a Meguiar's Mirror Glaze Cutting Pad.)

FOR USE BY HAND: SHAKE WELL. Always apply on a cool surface in the shade. Working one section at a time, dispense a small amount of product on a clean 100% cotton, terry cloth towel or applicator pad and rub thoroughly into surface. Immediately wipe dry with a separate clean 100% cotton, terry cloth towel. Keep off vinyl, rubber or cloth surfaces.

Health rating:

Health:	2
Fire:	1
Reactivity:	0
Specific Hazard:	N/A
