

# NETTINOX

## STAINLESS STEEL CLEANER AND RUST REMOVER

**NETTINOX** removes in one treatment rust spots on all stainless steel components: pulpits, stanchions, ladders, davits, fairleads, gangways etc...

Since it is a gel, it is easy to cover all surfaces, both horizontal and vertical.

**NETTINOX** is a triple-action rust remover

- Decarbonizes.
- Degreases.
- Protects.

After treatment the stainless steel is polished and shiny.

**NETTINOX** is perfect for treating difficult areas such as screw heads and the nooks and crannies of the bow davits.

### Technical Data :

- Physical state : Gel (jelly)
- Density : 1270 g/l +/- 20g/l
- Colour : Pink
- Chemical reaction : Strongly acidic

**Ref. 401M - Can 300grs**

**Ref. 401M.K - Can 1 Kg**

Shelf Life : 3 years

Contains PHOSPHORIC acid. H314 Causes severe skin burns and eye damage. P280: Wear protective gloves /eye protection. P301+330+331 IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. P303+361+353 IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/ shower. P304+340 IF INHALED: Remove person to fresh air and keep comfortable for breathing. P305+351+338: IF IN EYES Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do – continue rinsing. P501: Dispose of contents/container to an approved waste disposal. P102 Keep out of reach of children. The components contain less than 5% of non-ionic surface active agents. Always make beforehand, a test with the surface to be treated to determine the compatibility and the time of contact suited.

This document does not imply our responsibility as to specific applications. This data sheet can already, at this precise moment, be revised for reasons due to the legislation, the availability of components or experiences recently acquired. The last version of this data sheet, which is the only one valid, will be sent to you on simple request.
