

FLEXIKLINE

CONCENTRATED CLEANER FOR PVC TEAK DECKING SYSTEM

FLEXIKLINE removes perfectly grease, oil and tar marks on PVC teak deck material.

FLEXIKLINE removes quickly vegetable pollution such as the algae and moss.

FLEXIKLINE is safe to use for gelcoat, paint, plastic and light alloys under the recommended conditions of use.

Technical data :

Physical state : Fluid liquid.

pH (aqueous solution) : at 5 % = 11,10

Boiling point/boiling range : Not specified.

Flash point interval : Not relevant.

Vapour pressure (50°C) : Not relevant.

Density : 1.045 - 1.055

Water solubility : Dilutable.

Usage :

FLEXIKLINE is a concentrated cleaner to dilute. - For the daily care, the dilution is 150 ml for 5 litres of water.

- For the cleaning of very dirty PVC teak deck (at the exit from shipyard or after a conveying), the dilution is 500 ml for 5 litres of water.

Rub the hull. Rinse.

Ref. 336M - Bottle 1L
Ref. 336M.5 - Bottle 5L
Shelf Life : 3 years

H315 Causes skin irritation. H318 Causes serious eye damage. P280 Wear protective gloves/protective clothing/eye protection/face protection. P302 + P352 IF ON SKIN: Wash with plenty of soap and water. P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P102 Keep out of reach of children. Always carry out a test prior to use on the surface to be treated to determine suitability and the appropriate contact time. Components contain less than 5% of non ionic surfactants.

This document does not imply our responsibility as to specific applications. This data sheet can already, at this precise moment, be revised for reasons due to the legislation, the availability of components or experiences recently acquired. The last version of this data sheet, which is the only one valid, will be sent to you on simple request.
